15 Hour National Electrical Code Recertification Class: 2020-2022 Code Cycle

Instructors licensed in MA, RI, NH, VT, ME

Course approved for Masters, Journeyman, C & D License holders

6 Hour Course Content – Understanding Arc Flash Hazards – Review OSHA 1910 & 1926 (Subpart V) standards, as it relates to working on exposed energize parts. We will review the process in creating an Energized electrical work permit and review what type of Personal Protection Equipment (PPE) is to be used. We will also review Article 130 within the National Fire Protection Association (NFPA)-70E – “*Standard for Electrical Safety in the Workplace*” requirements. We will also review how to perform the arc flash calculation in determining the proper PPE that is required for the task.
